

CALIBRATION CYLINDER

CALIBRATION CYLINDER

The Endee Cylinder Gas Calibration Kit may be used for calibrating cup for quick and accurate calibration.

TECHNICAL DATA

Water Capacity	:	0.5 Ltr
Fill Pressure/Burst Pressure	:	21 Bar
Quantity of Gas available for use	:	10 Ltr
Container wall material	:	Aluminium.
Weight when full	:	Less than 300 Gms.

APPLICATIONS

- Check Toxic Gas Detectors.
- Check Combustion Efficiency Monitor.
- Environmental Tests.

SPECIAL FEATURES

- The user has 10 litres of usable gas.
- The cans are light weight and can easily be carried into difficult locations to check the instruments.
- No wastage of gas as the gas is drawby a re-usable "take-off value with flow indicator".
- The mixtures are high accuracy and each batch is checked prior to despatch.
- Special mixtures to customer specification can be supplied subject to a minimum quantity of Mini Spancans per mixture. Many mixtures available ex-stock.
- Express shipment by courier to most areas of India.
- Disposal, non-returnable containers reduce overhead costs.

Note : Specifications and Features will vary with application. The above are established and validated during design, but are not to be construed as test criteria for every product. Due to endee's commitment to research, design and product improvement, specifications are subject to change without notice.
